American Literature;
Outlines of History.

WINTER TERM . Geology;
English Literature;
Outlines of History.

SPRING TERM . English Literature;
Descriptive Astronomy;
Geology.

REMARKS.

THE COURSE OF STUDY.

The course has been planned with especial reference to its practical utility. Especial attention will be given to instruction in the common school branches. Care will be taken to present the subject in a plain and practical manner.

GRAMMAR SCHOOL DEPARTMENT.

In this course will be taught the most important branches of a good education. A certificate of graduation is given to pupils upon the completion of this course, and a diploma upon completing the Academic course.

ENGLISH HISTORY AND LITERATURE.

The public mind is rapidly becoming awakened to the fact that the English language should receive more atten-

tion in our common schools. The mother tongue and the masterly works written in it are of supreme importance to the English speaking race. A taste for good literature is one of the strongest safeguards against pernicious reading. These facts have caused us to devote unusual time to the branches of English education.

TEACHERS' AID.

While we do not aim to give undue prominence to preparation for any particular profession, yet the theory and practice of teaching is taught, and attention will be given to school economy, art of school management and other subjects of interest to those who intend to teach. Instruction in the Science of Education, accompanied with a preparation of an analysis of the subject by the pupils, constitutes a part of this course. School organization, management and teaching are given especial attention. Text books used in this department are supplemented by lectures.

BOOK-KEEPING.

Classes in Book-Keeping are organized at the beginning of the Winter Term, as it has been found that this arrangement accommodates the greatest number. Instruction is given in Single and Double Entry, in all of its departments of trade and commerce, including individual transactions, partnerships, merchandise, companies, jobbing, railroading, steamboating and commission and forwarding agencies.

MATHEMATICS.

Our course in mathematics will be seen to embrace such branches as will give a practical knowledge of the subject, and enable any one to make any ordinary calculations.

NATURAL SCIENCE.

It is our aim, along with imparting a knowledge of the fact, to teach the subject in such a manner as to lead the pupil to original investigation.

COMPOSITION.

Essay and letter-writing will receive especial attention in connection with the study of language.

MUSIC.

Instruction in vocal music is given without additional expense to students during the winter term. Arrangements are being made for giving instruction in instrumental music during the school-year 1888-9. Charges for instruction and use of instruments in practicing will be announced in the catalogue for that year.

LIBRARY.

A sum of \$200 has recently been donated by friends of the school, for the purpose of enlarging the library.

ANNOUNCEMENT AND PROSPECTUS.

Friends' Pacific Academy is located at Newberg, Yamhill county, Oregon, on the Portland and Willamette Val-

ley railroad, twenty-two miles from Portland, and one mile from Rogers' Landing on Willamette river.

It was opened for pupils September 28th, 1885, and had enrolled during the first week nineteen pupils. The second school year began September 13th, 1886, with an enrollment of twenty-six, and the present school year opened Sept. 12, 1887 with an enrollment of fifty-one.

At the time of the opening of the school only the Academy building was erected, and only the lower story of it was completed. During the summer of 1886 the boarding hall and three cottages for pupils boarding themselves were constructed, and during the summer of 1887, the hall for gymnasium and boy's dormitories, was commenced and the Academy building was completed. The trustees hope to be able to add other buildings as they are needed.

NEWBERG.

It is a small village, of recent growth, situated in a beautiful valley among the mountains of Western Oregon, and has a healthful and agreeable climate. It is a temperance town and has a moral and enterprising class of people. There are no saloons nearer than eight miles. People desiring to put their children in a school where the whole community is interested in keeping out undesirable influences and encouraging education and religion, will find no better place than Newberg. The Academy is the one object of interest to the citizens of the town, and no pains is spared to make the town homelike to students. The homes of all the best citizens are always

open to them, and the exercises in church and Sabbath schools are adapted to their needs.

GOVERNMENT.

Since immoral and sinful practices are incompatible with the highest mental or physical development, no one is desired as a student who will not abstain therefrom. And since some amusements (while they are not considered sinful by some) are calculated to distract the minds of pupils from their studies, they, also, are strictly excluded from the pastimes or recreations of pupils while attending the Academy. The attendance of the pupil, then, is taken as an assurance of a ready and willing co-operation with the teachers in those measures thought necessary for the best interests of the school; and it will be the aim of the instructors to so fill the time with profitable and interesting employment that there will be no room left for evil. 9

GYMNASIUM.

It has so frequently happened that students have found, after obtaining an education, that they have done so at the expense of health and physical vigor, that it has been determined to make in the Academy provision for such a degree of physical training as to insure a sufficient amount of exercise, and to form habits of erect and graceful carriage. For this purpose a gymnasium has been instituted.

EXPENSES.

Good board, in private families, can be obtained for

from \$2.50 to \$3.00 per week. The total expense to those boarding in the hall for the school year, not including the two weeks' vacation, and including tuition, board, fire, lights, for those who wish to study in the study-room, which shall be under the oversight of the manager of the boarding-hall, will be \$110.00 for students in the Grammar course, and \$116.00 for students in the Academical course, though students will be expected to furnish their own rooms, except bedstead and mattress, stove, chair and washstand. Fires and lights in the student's rooms must be furnished by the students. Only ladies will be lodged at the boarding-hall, though young men can take their meals there. Arrangements have been made for lodging elsewhere. Rooms can be rented by those wishing to board themselves. Where pupils live near the Academy this plan is found to be satisfactory.

THE COTTAGE PLAN.

Especial arrangements have been made for the accommodation of young ladies who wish to board themselves. For this purpose small cottages have been provided adjoining the boarding-hall. Pupils living in these cottages are under the care of the manager of the boarding-hall. The cottages are papered and painted, and are cosy and comfortable. Unfurnished they rent for one dollar per month for each room. Furnished with stove, bedstead, woven-wire mattress, table and chairs, they

rent for two dollars per month for each room. Wood cut and split ready for the stove will be furnished for \$4.50 per cord (128 cubic feet,) when cut 12 inches long, and \$3.75 per cord when cut 16 inches long. Young ladies boarding in these cottages have the use of the laundry belonging to the boarding-hall, and can buy bread at a reasonable price if they wish to do so. Young ladies living within one day's drive of Newberg can bring furniture and supplies, and in this way reduce the expense of attending school to less than \$50 per year. We have also arranged with several of the best families in the village to rent rooms for young ladies in their houses. In this way persons can place their daughters in care of good families and the expense be very slight—about the same as above. While the school is for both sexes, yet especial attention has been paid to the arrangements for young ladies.

TUITION.

	Fall Term.	Winter Term.	Spring Term.
1st year, grammar course	\$7.50	\$ 8 00	\$7 50
2d year " "	\$8 00	\$ 8 50	\$8.00
1st year academical "	\$8.50	\$ 9 00	\$8.50
2d year " "	\$9.00	\$ 9 50	\$9.00
3d year " "	\$9.50	\$10.00	\$9.50

Tuition due at the commencement of each term.

FINANCIAL.

Mrs. Anna E. Bell, of Newberg, has been appointed by Newberg Monthly Meeting of Friends, and the trustees of the Academy to solicit funds for the purpose of providing enlarged accommodations to meet the growing needs of the school.
